

The following charts compare the percentage of children in each cohort working at and above the Expected standard at the end of the 2020-21 academic year in July 2021 (figures adjusted for children still on roll in July 2022) with assessments in July 2022:

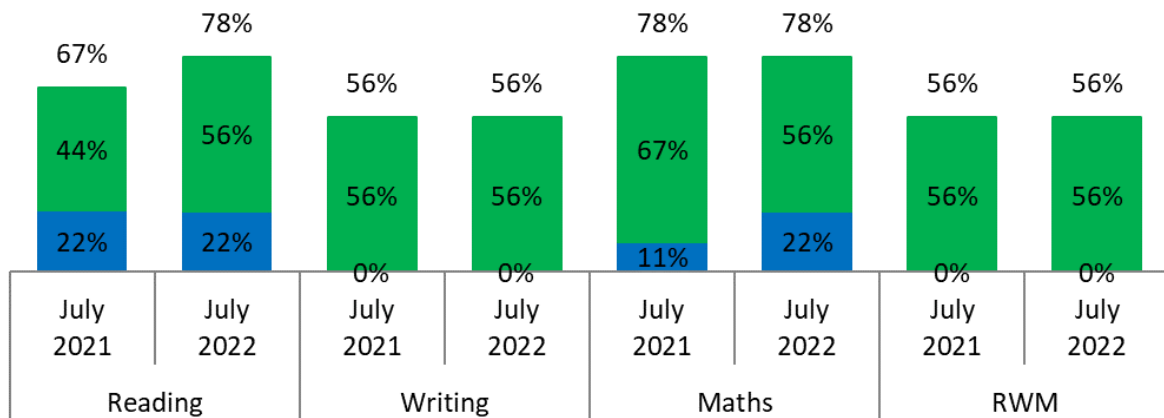

Y6: % of children working at Expected and above, July 2021 and July 2022

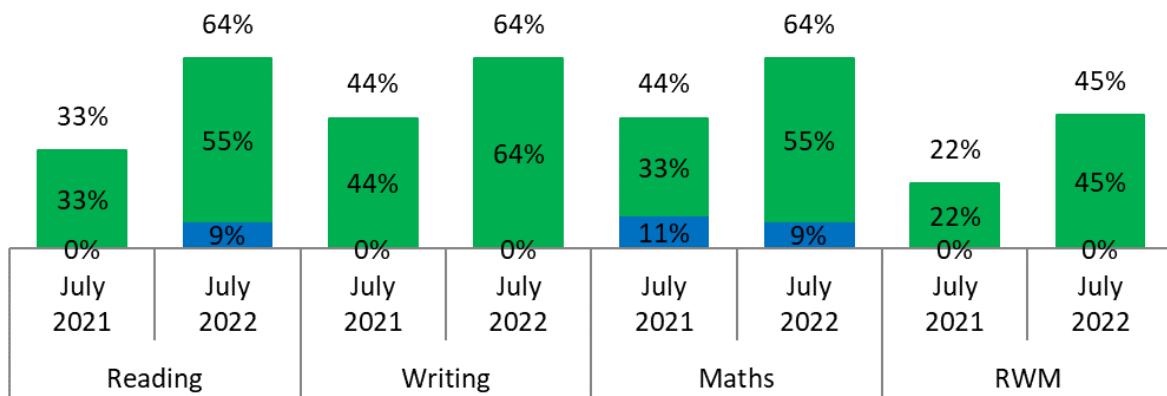

Y5: % of children working at Expected and above, July 2021 and July 2022

Y4: % of children working at Expected and above, July 2021 and July 2022

Y3: % of children working at Expected and above, July 2021 and July 2022

Y2: % of children working at Expected and above, July 2021 and July 2022
