

Buzzards Year 6 SATs 2023 Presentation for Year 6s, Parents, Carers & Guardians

What are the SATs?

- SATs are the Standardised Assessment Tests that are given to children at the end of Key Stage 2.
- The SATs take place over four days, starting on Tuesday 9th May ending on Friday 12th May. Monday 8th May is a bank holiday this year. Attendance is vital. if children miss/ are unable to attend a paper, then they will still have to sit it. This will mean they complete it separate to their peers, which can be a source of increased anxiety.
- The SATs papers consist of:
 - Grammar, punctuation and spelling (paper 1: GPS) Tuesday 9th May
 - Grammar, punctuation and spelling (paper 2: Spelling) Tuesday 9th May
 - Reading Wednesday 10th May
 - Maths (paper 1: Arithmetic) Thursday 11th May
 - Maths (paper 2: Reasoning) Thursday 11th May
 - Maths (paper 3: Reasoning) Friday 12th May
- Writing is assessed using evidence collected throughout Year 6. There is no Year 6
 SATs writing test. Every piece of writing counts!

When and how the SATs are completed

- The tests take place during normal school hours, under exam conditions.
- Children are not allowed to talk to each other from the moment the assessments are handed out until they are collected at the end of the test.
- After the tests are completed, the papers are sent away to be marked externally.
- The results are then sent to the school in July.
- Each test lasts no longer than 60 minutes:
 - Spelling, punctuation and grammar (paper 1: Grammar/ Punctuation) 45 minutes
 - Spelling, punctuation and grammar (paper 2: Spelling) 15 minutes
 - Reading 60 minutes
 - Maths (paper 1: Arithmetic) 30 minutes
 - Maths (paper 2: Reasoning) 40 minutes
 - Maths (paper 3: Reasoning) 40 minutes

The results

Tests are marked externally. Once marked, the tests will be given the following scores:

- A raw score (total number of marks achieved for each paper);
- A scaled score (see below);
- A judgement on if the National Standard has been met.

After marking each test, the external marker will convert the raw score to a scaled score. Even though the tests are made to the same standard each year, the questions must be different. This means the difficulty of the tests may vary. Scaled scores ensures an accurate comparison of performance over time.

Scaled scores range from 80 to 120.

A scaled score of 100 or more shows the pupil is meeting the National Standard.

Grammar, Punctuation and Spelling: Tuesday 9th May

Grammar, punctuation and spelling consists of two papers.

- Paper 1 focuses on all three elements (grammar, punctuation and spelling or GPS).
 The paper lasts for 45 minutes.
- Paper 2 consists of a spelling test only. It should take approximately 15 minutes, although this is not a set amount of time (pupils should be given as much time as they need to complete the test).

Grammar, Punctuation and Spelling: Paper 1 (GPS)

The children will have been working hard with their class teacher on developing and securing their knowledge of the technical vocabulary needed in this test.

This test focuses on:

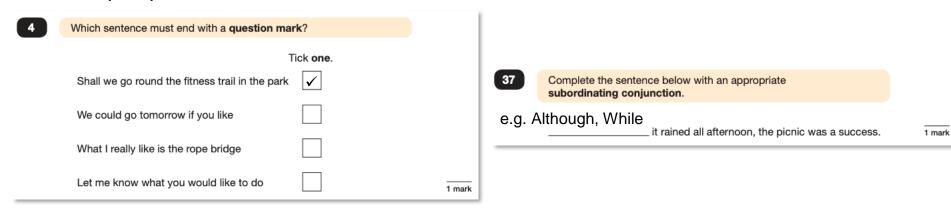

- Grammatical terms/ word classes;
- Functions of sentences;
- Combining words, phrases and clauses;
- Verb forms, tenses and consistency;
- Punctuation;
- Vocabulary;
- Standard English and formality.

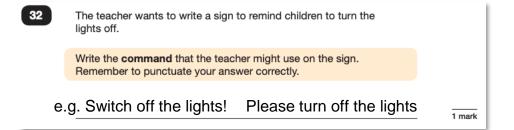

This test requires a range of answer types but does not require longer formal answers.

Grammar, Punctuation and Spelling: Paper 1 (GPS)

Example questions:

Grammar, Punctuation and Spelling: Paper 2 (spelling)

Paper 2 is a shorter paper that focuses solely on spellings.

Example questions:

Spelling

- **1.** The children were _____ the objects from smallest to largest.
- 2. Do not show ______ to anyone.
- 3. I was given a _____ award.

Spelling 1: The word is ordering.

The children were **ordering** the objects from smallest to largest.

The word is ordering.

Spelling 2: The word is disrespect.

Do not show disrespect to anyone.

The word is disrespect.

Spelling 3: The word is special.

I was given a special award.

The word is special.

Reading: Wednesday 10th May

There is one reading test that lasts for 60 minutes.

The test is designed to measure if the children's comprehension of age-appropriate reading material meets the national standard. There are three different set texts for children to read. These could be any combination of non-fiction, fiction and/ or poetry.

There is quite a large amount of text to read alongside the questions to answer. Children need reading stamina (home reading is really important) encouraging to reading for pleasure and increasing both fluency and stamina.

The test covers the following areas (known as Content Domains): [VIPERS]

- Give/ explain the meaning of words in context;
- Retrieve and record information/ identify key details from fiction and non-fiction;
- Summarise main ideas from more than one paragraph;
- Make inferences from the text/ explain and justify inferences with evidence from the text;
- Predict what might happen from details stated and implied;
- Identify/ explain how information/ narrative content is related and contributes to meaning as a whole;
- Identify/ explain how meaning is enhanced through choice of words and phrases;
- Make comparisons within the text.

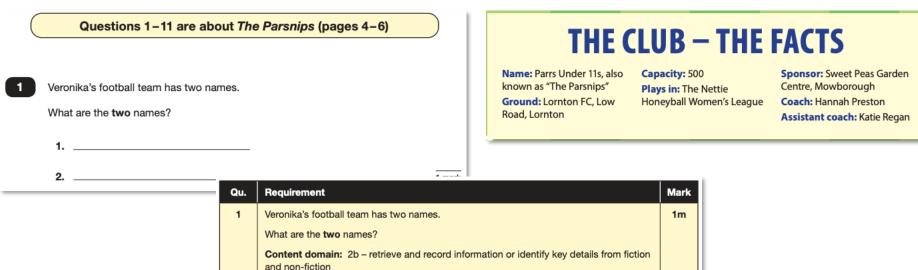

Reading

The reading SATs paper requires a range of answer styles.

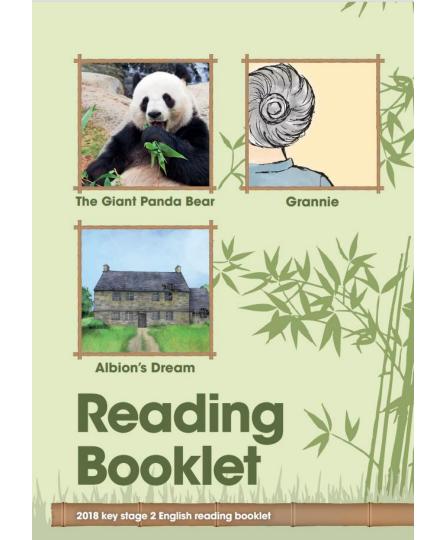

The ParsnipsParsnipsParrs under 11s

· Parrs.

Example questions:

Award 1 mark for reference to Parrs Under 11s and The Parsnips, e.g.

Reading

Example questions:

Based on text 2: My Circus Life

17 Look at page 9.

Vladik is always changing his *Dralion* performance.

Give **two** ways that these changes to his performance happen.

Do those changes happen naturally, or are you looking for ways to change it?

Sometimes those changes happen naturally, yeah. Sometimes I say to myself, "Wait a minute! I'm doing this differently." I don't know how it even happens. Some things, of course, I modify deliberately; I add a trick in or something. It's easy to do it in practice. I have many, many tricks in training. But when you're on stage, it's different because you really have to have it perfect. Especially because you get used to doing the same things for that long. So when you start to put in something new, you automatically feel your body doing something wrong. [Laughs]

Qu.	Requirement	Mark				
17	Look at page 9.					
	Vladik is always changing his <i>Dralion</i> performance.					
	Give two ways that these changes to his performance happen.					
	Content domain: 2b – retrieve and record information or identify key details from fiction and non-fiction					
	Award 1 mark for reference to any of the following, up to a maximum of 2 marks:					
	 Vladik's performance changing naturally / without him knowing how it happens, e.g. 					
	changes happen naturally					
	 he just does the changes and he doesn't even realise. 					
	2. Vladik deliberately making changes to his performance, e.g.					
	he modifies them on purpose					
	they happen deliberately.					
	3. Vladik adding a trick, e.g.					
	putting in a new trick.					

Reading

Example questions: Based on the whole text

Think about the whole text.

What impressions do you get of Penelope as she describes her unusual experience?

Give two impressions, using evidence from the text to support your answer.

1.	
2	

3 marks

Qu.	Requirement	Mark			
33	Think about the whole text.	Up to			
	What impressions do you get of Penelope as she describes her unusual experience?	3m			
	Give two impressions, using evidence from the text to support your answer.				
	Content domain: 2d – make inferences from the text or explain and justify inferences with evidence from the text				
	Acceptable points:				
	1. curious				
	2. imaginative				
	3. confused				
	4. unafraid				
	5. solitary / content with her own company				
	6. observant				
	Award 3 marks for two acceptable points, at least one with evidence, e.g.				
	 1. She has a big imagination because she thinks that she is in a forest when she is sitting in the stairway. [AP2 + evidence] 				
	2. That she is good at noticing things that go on. [AP6]				
	 1. I think she is just a curious girl who wants to know everything that is going on. [AP1] 				
	She is very confused. 'I never felt them touch me and this gave me a curious sensation.' [AP3 + evidence]				
	Award 2 marks for either two acceptable points, or one acceptable point with evidence, e.g.				
	1. Brave because she did the right thing in the situation. [AP4]				
	2. She was a person who definitely kept herself to herself. [AP5]				
	 1. She is not afraid. 'Ran downstairs and pushed open the door expecting to see her.' [AP4 + evidence] 				
	Award 1 mark for one acceptable point, e.g.				
	1. She likes to find out about other people. [AP1]				

Maths: Thursday 11th May and Friday 12th May

The maths assessments consist of three tests.

- Paper 1: Arithmetic (30 minutes) Thursday 11th May
- Paper 2: Reasoning (40 minutes) Thursday 11th May
- Paper 3: Reasoning (40 minutes) Friday 12th May

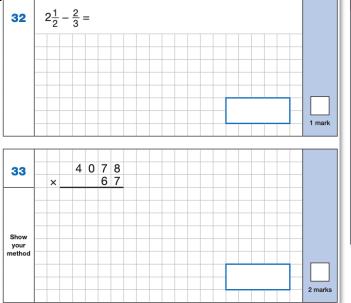

Maths Paper 1 (Arithmetic)

The maths arithmetic paper has a total of 40 marks and lasts for 30 minutes.

The test covers the four operations (addition, subtraction, multiplication, division, including order of operations requiring BIDMAS), percentages of amounts and calculating with

decimals and fractions.

Example questions:

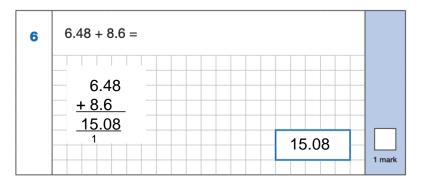

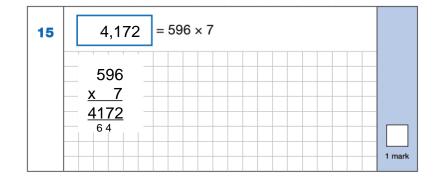

Qu.	Requirement	Mark	Additional guidance
32	$1\frac{5}{6}$ OR $\frac{11}{6}$	1m	Accept equivalent mixed numbers, fractions or an exact decimal equivalent, e.g. 1.83 (accept any unambiguous indication of the recurring digits). Do not accept rounded or truncated decimals.
33	Award TWO marks for the correct answer of 273,226 If the answer is incorrect, award ONE mark for a formal method of long multiplication with no more than ONE arithmetic error, e.g. 4078 × 4078 28546 244680 273126 (error) OR 4078 × 67 28544 (error) 244680 273224	Up to 2m	Working must be carried through to reach a final answer for the award of ONE mark. Do not award any marks if the error is in the place value, e.g. the omission of the zero when multiplying by tens: 4078 × 67 28546 24468 (place value error) 53014

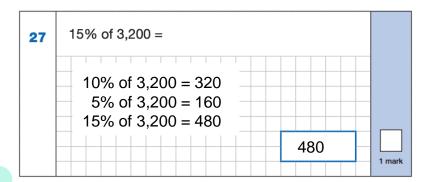

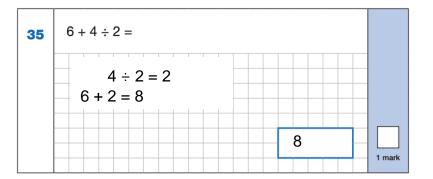

Maths Paper 1 (Arithmetic)

Example 1 mark questions:

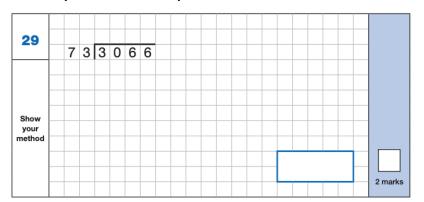

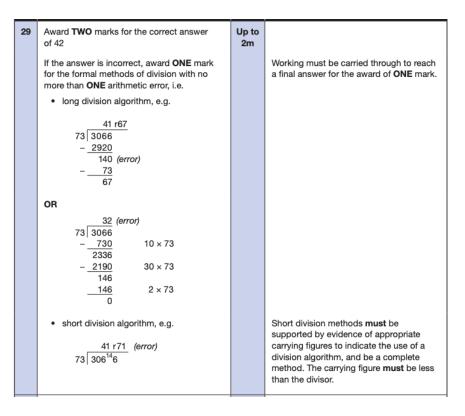

Maths Paper 1 (Arithmetic)

Example 2 mark question:

Maths Papers 2 and 3 (Reasoning)

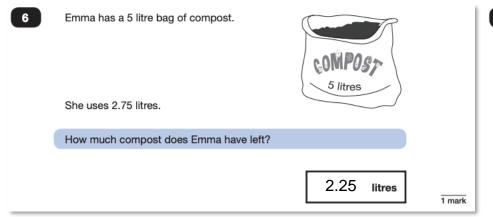

Paper 2 will take place on Thursday 11th May and paper 3 will take place on Friday 12th May. These tests have a total of 35 marks each and lasts for 40 minutes each.

These papers require children to demonstrate their mathematical knowledge and skills, as well as their ability to solve problems and their mathematical reasoning. They cover a wide range of mathematical topics from key stage 2 including,

- Number and place value (including Roman numerals);
- The four operations;
- Geometry (properties of shape, position and direction);
- Statistics;
- Measurement (length, perimeter, mass, volume, time, money);
- Algebra;
- Ratio and proportion;
- Fractions, decimals and percentages.

Maths Papers 2 (Reasoning)

Example questions:

In a race, Ali completes a swim, a run and a bicycle ride.

The swim is $\frac{1}{10}$ of the total distance.

The run is $\frac{3}{10}$ of the total distance.

What fraction of the total distance is the bicycle ride?

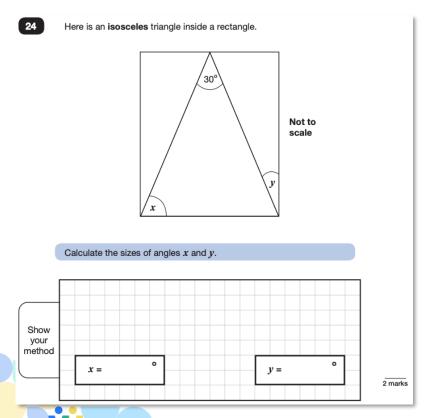

6 10

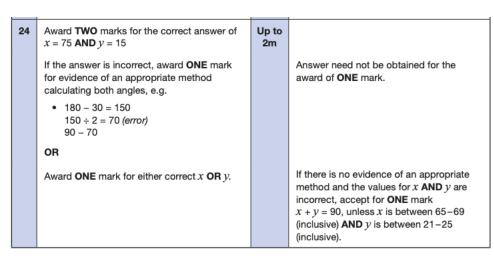

1 mark

Maths Papers 2 (Reasoning)

Example question:

Maths Papers 3 (Reasoning)

Example questions:

Jack says, When you square a prime number, the answer has only two factors. Explain why Jack is not correct.

Award ONE mark for a correct explanation,

- It has 3 factors the prime number, 1 and the square of the prime number.
- . The prime number has 2 factors; the squared prime number will be divisible by one, itself and the prime number.
- · All prime numbers squared have 3 factors.

OR

1 mark

A correct explanation that gives a counter example, e.g.

• 5 is prime $5^2 = 25$

25 has 3 factors: 1, 5 and 25, not two

- 72 has more than 2 factors 1, 7 and 49
- 121 = 1 x 121 = 11 x 11
- $3^2 = 9$
- 9 1.9.3• $5^2 = 25$
 - Factors of 25 = 1, 5, 25All squared primes have 3 factors.

1m

Do not accept vague or incomplete explanations, e.g.

- · A square number doesn't have 2 factors (repeat of the question)
- 2² = 4 (incomplete)
- Prime numbers have 2 factors only (incomplete)
- · Prime numbers squared have more than 2 factors (vague)

Do not accept explanations which include incorrect mathematics or incorrect information relevant to the explanation, e.g.

- 49 = 1, 7, 49
- 5 squared is 25 1, 5, 5, 25 25 has four factors
- · All prime numbers squared have more than 3 factors

Maths Papers 3 (Reasoning)

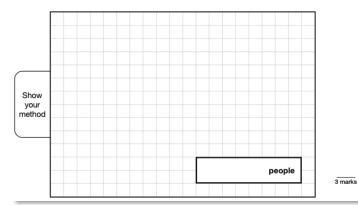

Example question: 20

This table shows how many people finished the New York Marathon in each of the first four decades it was held.

New York Marathon				
Decade	Total number of people who finished			
1st decade	24,863			
2nd decade	170,932			
3rd decade	282,420			
4th decade	350,824			

What is the mean number of people who finished the marathon per decade? Round your answer to the **nearest hundred**.

Qu.	Requirement	Mark	Additional guidance
20	Award THREE marks for the correct answer of 207,300	Up to 3m	
	If the answer is incorrect, award TWO marks for:		
	 evidence of an appropriate complete method which contains no more than one error, e.g. 		
	24,863 170,932 282,420 + <u>350,824</u> 828,939 (<i>error</i>)		
	828,939 ÷ 4 = 207,234 r3 Rounded to the nearest hundred		
	= 207,200		
	OR		
	 sight of 207,259 r3 OR 207,259 3/4 OR 207,259.75 		
	Award ONE mark for: • evidence of an appropriate method with more than one error.		Answer need not be obtained or rounded for the award of ONE mark.
			A misread of a number may affect the award of marks. No marks are awarded if there is more than one misread or if the mathematics is simplified.
			TWO marks will be awarded if an appropriate method with the misread number is followed through correctly.
			ONE mark will be awarded for evidence of an appropriate method with the misread number followed through correctly with no more than one error.

Supporting your child in preparing for the SATs

Firstly, a positive attitude goes a long way. Give them as much encouragement and support as you can (but I don't need to tell you that)!

Tips:

- Don't use past papers as they are used in school to prepare the children.
- Encourage and organise for them to attend the SATS clubs each week.

SATS clubs for Year 6 starting next week:

8.00 - 8.40	SPAG	Maths	Maths	TTRS/
Spring 1	READING			Mathletics
Commence				Optional – ask
17.1.23				to go over topics etc.
				เบษเธร ยเธ.

Supporting your child in preparing for the SATs

- Contact me if you have any concerns or questions.
- Encourage your child to talk to me or a trusted adult (including yourself) about their anxieties. Don't forget that a small amount of anxiety is normal and not harmful.
- Give your child a quiet, distraction free space to complete homework or study.

Little and often until SATS. Children will be issued with revision/ work books. Please ensure only set pages are completed.

Supporting your child in preparing for the SATs

Further tips:

- Going over key skills (times tables, real world mental maths as you are shopping or cooking) is a good way to consolidate and extend skills.
- As we said before, avoid using past papers. I will provide lots of practice materials that reflect our coverage in class. They also have TTRS and Mathletics.
- If you're looking to work with your child further with maths at home, there are lots of good websites with free Year 6 revision resources and there are plenty of inexpensive SATs practice materials for parents available.

Supporting your child during the week of SATS

- Plan something nice and fun for the weekends before (long weekend King's Coronation!) and after SATs. This will help them to relax before the SATs and give them something to look forward to after. Make sure they are well rested for the week.
- Make sure they have no appointments for the week. Children really benefit from being able to sit the tests with their peers.
- We have and will continue to do mock weeks so the children are confident with what to expect. The final mock week is designed to fully reflect what they will experience in May.
- We will plan a balanced week with lots of opportunities for well-being activities. Last year, for example, we provided breakfast and invited the children in early with puzzles, colouring available and had a chuckle and a talk over breakfast to start each day. In the afternoon we did lots of sport, creative learning and research tasks.
- I know I don't need to say, but talk to your child and encourage them to talk to me, another adult at school or their peers about their feelings. Don't forget that a small amount of anxiety is normal so is excitement!

What to do if you are worried about your child

Talk to me

Sometimes concerns present at home and not at school. If you notice a change in your child, talk to the school so that everyone concerned can offer the support needed.

Talk to your child

Talk to your child about what aspect of SATs concerns them the most. If you can help them pinpoint what is bothering them the most, you can take specific steps to help reassure them.

Encourage your child to talk to an adult at school

SATs are obviously linked to school. Don't be surprised if your child would prefer seek reassurance from teachers over family members.

Try not to project your own anxieties or views about the SATs

Be positive about the SATS and process around your child. SATS are a reality and revisiting what they have been learning whilst at primary school will improve their learning foundations for secondary school.

Advice for Year 6 children

- Be proud of all the progress you have already made in your learning.
- Continue to listen to the adults and work your hardest. Remember the adults you work with all want you to do your best.
- Get plenty of sleep and eat well, this will help your brain.
- Remember that the Year 6 SATs last for 4 days out of your whole life! By the time they
 are here, you will be ready!
